

EXACTLY THE RIGHT FIT

If you're looking for a trusted partner for "mid to mega" metal fabrication, look no further than ExacTech. We are a world-class, turnkey metalworking operation that handles custom metal fabrication, ultra-precision CNC machining, burning, blasting, metal assembly and finishing services. Located in Northeast Wisconsin, we work with customers around the world to provide high-quality, precision fabrication for such industries as: Mining, Marine, Construction and Energy.

With a lifting capacity of 100 tons and our highly-experienced fabricators, machinists and assemblers, we not only out-lift, but outsmart the competition.

- ❑ ISO 9001 certified quality
- ❑ Expedited quote system
- ❑ Comprehensive turnkey solutions
- ❑ AWS D1.1 – all wire types
- ❑ Advanced machining tools
- ❑ CNC precision engineering and production
- ❑ Computerized process with 4-point inspection
- ❑ One of the largest CNC horizontal boring machines in the Midwest
- ❑ Over 80,000 sqft. of manufacturing space
- ❑ Dual 50-ton cranes (100-ton total)
- ❑ Full assembly capabilities

MID-SIZE TO MEGA FABRICATION (UP TO 100 TONS)

ExacTech's value streams are built around both mid-sized and mega (50+ ton) metal fabrication. Our multi-pass welding discipline ensures the ultimate in quality and our multi-point inspection at every turn guarantees the consistency and performance that your brand deserves.

Plus, with a world-class facility and oversized capabilities, we relish the challenge of being awarded mega build jobs and pride ourselves on delivering every time.

- ❑ Plasma and Oxy Fuel, dual-drive gantry burn tables
- ❑ 80,000 sqft. manufacturing floor for mega builds
- ❑ Multiple weld tables
- ❑ Sub-arc welding capabilities
- ❑ Multi-crane lifting with 100-ton capacity

MACHINING

Take a tour of our facility and you'll be impressed by the array of lifting and press equipment next to hi-precision CNC burning, machining and boring equipment. All of which is operated by the finest in the business, providing us with the capabilities for various shapes and sizes.

- ❑ WMW BP-180 CNC traveling column boring bar with fanuc 18MC control
 - Travel X = 36', Y = 16.5', Z = 6'
- ❑ HNK model HFB 150 CNC RAM/floor heavy duty horizontal boring & milling machine
 - Travel X = 20', Y = 10.5', Z = 2.6'
- ❑ Machining Centers with envelopes between 40"-60"

PAINTING

We have a separate oversized cleaning and blasting facility adjacent to our manufacturing plant. From here, our team of skilled painters can work to military and marine standards and our spray room can handle the most complex of applications.

- ❑ 60 ft. x 70 ft. blasting facility
- ❑ 18 ft. x 55 ft. and 20 ft. x 51 ft. paint booths

ASSEMBLY

After our finishing and painting process, we have the added capabilities to assemble units to your specifications, saving you time and labor at the delivery site. With a 60,000 sqft. shop floor for assembling very large jobs, our team can then build units before delivery to ensure proper fit and functionality.

- ❑ 60,000 sqft. assembly floor
- ❑ OEM trained assemblers
